

Event Information

Dear Superkart Drivers,

The Motorsport Club Stuttgart e.V. is happy to add the Superkart classes to it's event in Oschersleben. As we worked in the past with the European Superkart Series, we know what it is about and are happy to welcome you back. In preparation of this event we are also in contact with the team of Henk Hali and Ian Rushforth. So our target is to create an event where we join forces to strength the Superkart community. To make this event a success it is important to receive your entry (registration form below and entry fee payment) as soon as possible in time!

The event format will be slightly different to Assen but we will run to the same sporting and technical regulations which we will send out soon include the first event schedule but plan is to run on Saturday/Sunday with an early end on Sunday.
